

Social Booth Settings - FTP

Modified on: Sun, 12 Jul, 2015 at 6:49 AM

F1 SETTINGS

1 Enable FTP

2 Server

3 Port

4 Username

5 Password

6 Remote Directory

7 TEST CONNECTION

 Upload incoming photos to a directory on your own Web Server for storage or online galleries.

(<http://imgur.com/z4fufNC>)

- 1. Enable FTP**
This enables the background FTP uploader. All photos will be uploaded to an FTP site.
- 2. Server**
This is the server for your FTP. Usually something like ftp.yoursite.com.
- 3. Port**
This is the server and port # for your FTP. Usually 21.

4. **Username**
Your FTP username.
5. **Password**
Your FTP password.
6. **Remote Directory**
The remote directory where you want the photos uploaded to. For example, /home/public_html/your_folder_name.
7. **Test Connection**
Click [here](#) to test the FTP connection to make sure the info that you entered is correct.
