1 Enable SMS

2 Send via MMS
US & Canada only. Will need a new MMS enabled phone # from Twilio

3 Twilio Phone # eg. 9498675309

4 Twilio ACCOUNT SID

5 Twilio AUTH TOKEN

6 SMS Message
Here's your photo.

7 Prepend Country Code Add country code for non-US numbers

Twilio is required to send SMS. You can try Twilio for free, but to use it at an event, you will need to sign up. A Twilio phone # costs \$1/month and each SMS costs \$.01

(<http://imgur.com/Bib8fjH>)

1. Enable SMS

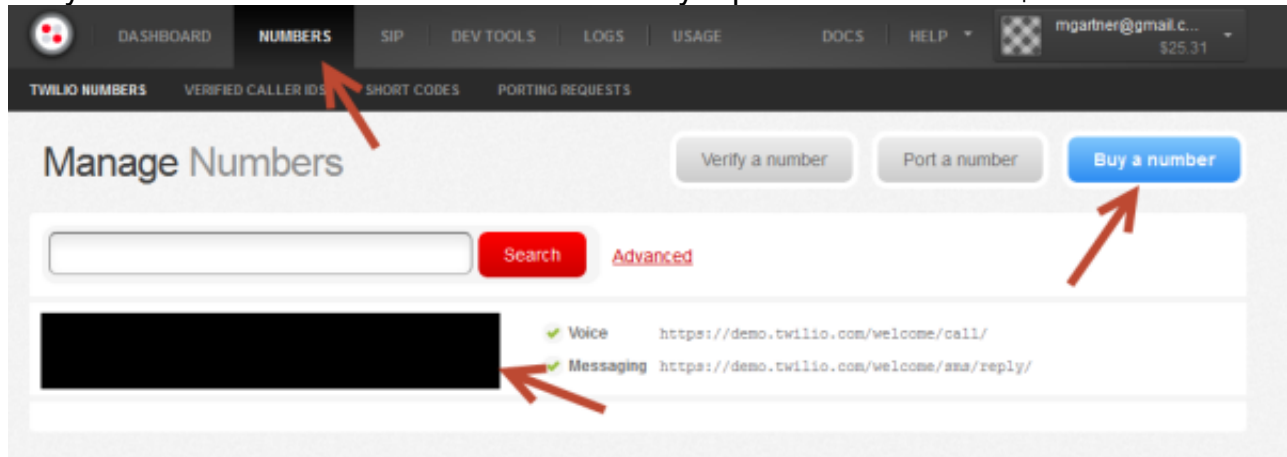

Click to allow users to send their photos via SMS. You will need to sign up to Twilio [here](https://www.twilio.com/) (<https://www.twilio.com/>) to send SMS messages. Twilio is available in most countries and costs about \$.01 per SMS. The user will receive a link to their photo as a text message.

2. Send via MMS

Click to allow users to receive their photo directly in their messaging. They will receive both the photo and a link to their photo. You will need a MMS enabled number from Twilio.

3. Twilio Phone

Enter your Twilio Phone #. You will need to buy a phone number for \$1

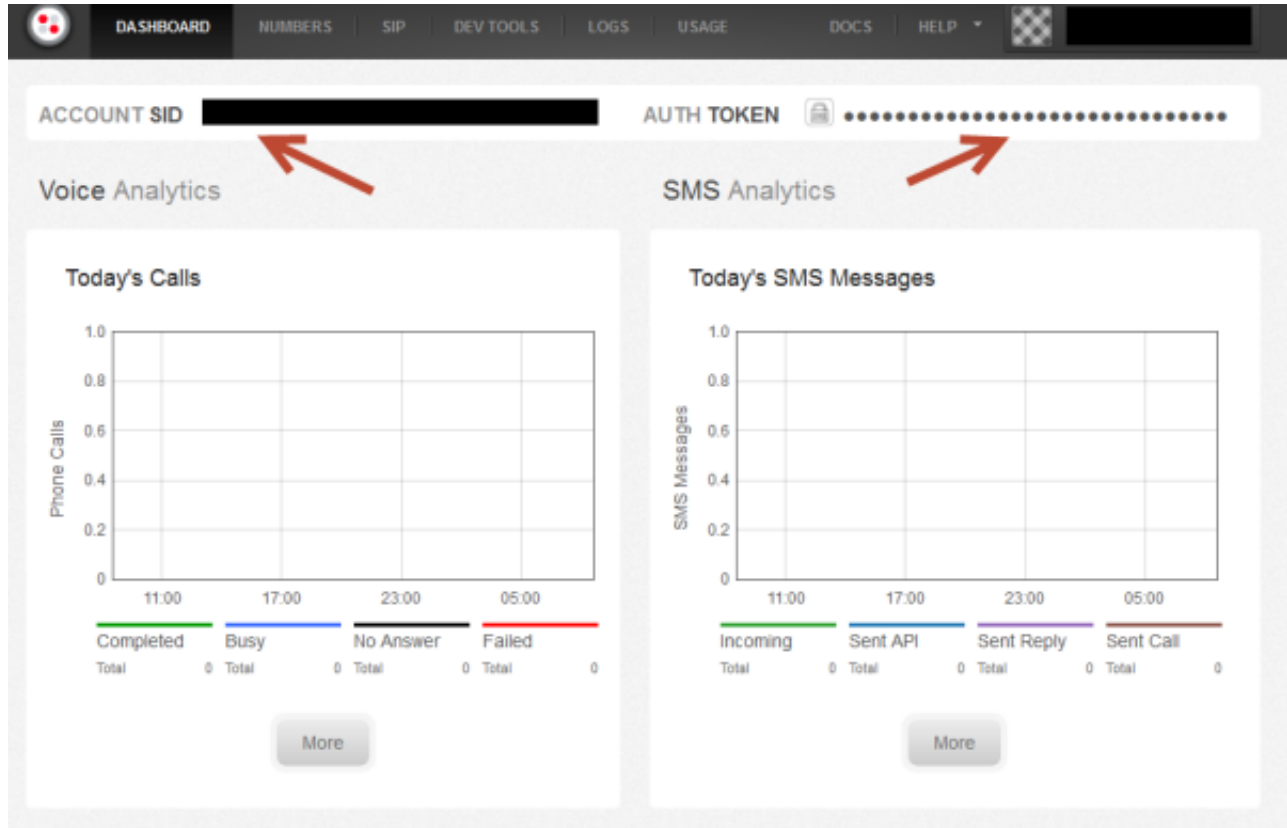

4. Twilio Account SID

Enter you Twilio Account SID

5. Twilio Auth Token

Enter you Twilio Auth Token

6. **SMS Message**

Enter the message to accompany the link to your photo.

7. **Prepend Country Code**

If you are outside of the US Twilio requires you to use your country code. Since most users won't be used to adding this to their phone #s, you can enter it here and each SMS message will have the country code automatically added to it.
