

Social Booth Settings - Surveys & Disclaimers

Modified on: Sun, 12 Jul, 2015 at 7:23 AM

1 Enable Survey

2 Survey Title **4** Email Y/N A,B,C

3 Question 1

Question 2

Question 3

Question 4

Question 5

5 Enable Disclaimer

6 Disclaimer Title

7 Disclaimer Text .bit file with text or .jpg/.png image

8 Auto Show Survey or Disclaimer Before Sharing After Sharing

Enter up to 5 questions to ask the user before uploading. This data is available in the Reports tab. Check the email box to autofill email uploads if the question is an email address. Check Yes/No to indicate a Y/N question. To use a Disclaimer, select a text file with your disclaimer text for the user to accept.

(<http://imgur.com/VxGE71q>)

1. Enable Survey

Enable this to ask the survey questions before uploading.

2. Survey Title

The title of the survey

3. Questions

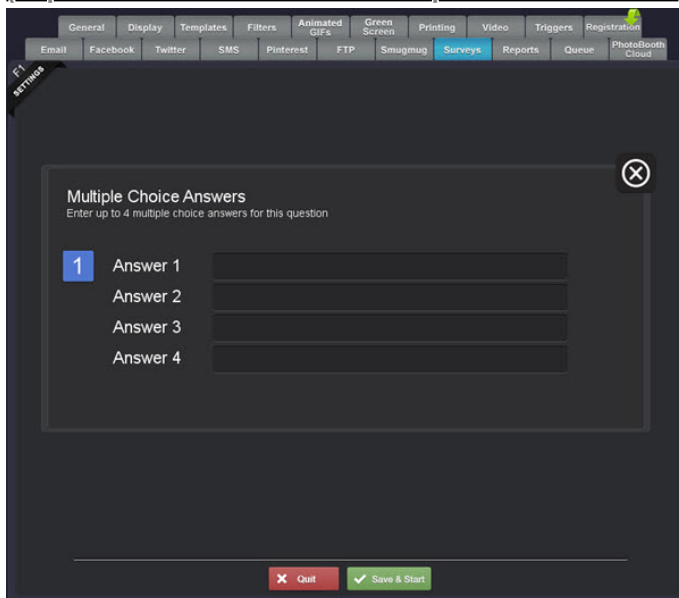

Enter up to 5 questions to ask the user. The default question will be a text field entry.

4. Question Types

If one of the question is for their email address, then check the email field so that if they choose to hit the email button after the survey, their address will be auto populated. If the question is a Yes/No, check this box and Yes/No buttons will be shown instead of a text field. If the question is a Multiple Choice question, click the arrow icon to add the answers for each question.

Note: If you are interested in collecting email addresses and are enabling several different upload options besides email, you may want to ask for the email as one of the survey questions, as this will ensure that more users will enter their address as opposed to only the ones who choose email as their upload option.

5. Enable Disclaimer

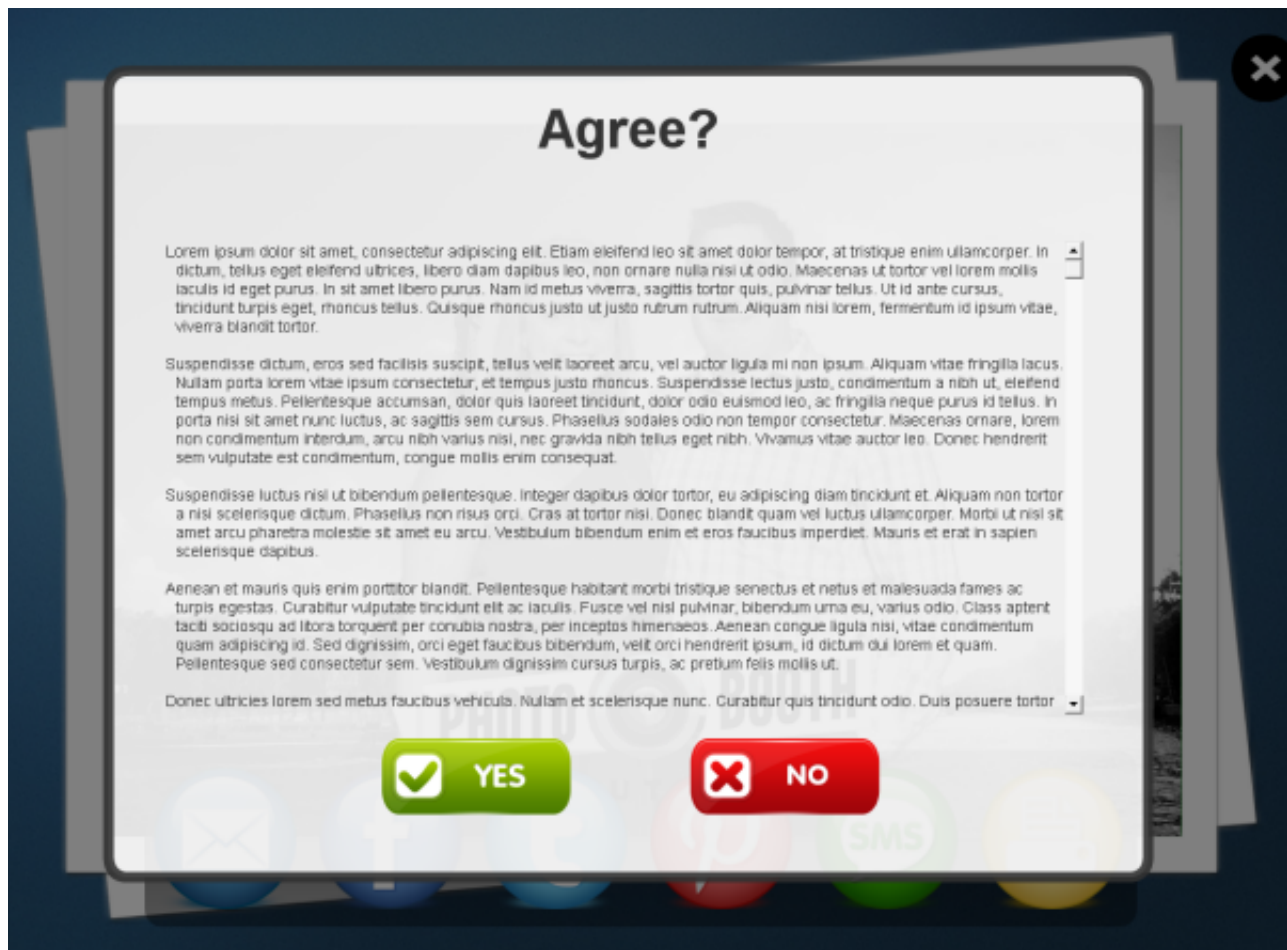

You can show a disclaimer screen to the user before they upload and ask them to agree to the terms and conditions before they upload. If they don't agree, they won't be allowed to upload.

6. Disclaimer Title

The title of the Disclaimer

7. Disclaimer Text

Select a .txt file with the text of the disclaimer to be shown. You can also use a png image instead of text for different layouts or foreign characters.

8. Auto Show Survey or Disclaimer

Checking Before Sharing will show the survey or disclaimer as soon as the user selects a photo. Otherwise, it will show once the user has chosen one of the sharing buttons.
